Online price monitoring

September 15th, 2015

Camelcamelcamel is a website that monitors the price of online products to give you an idea if it's near the lowest it has ever been. You can even enter your email address to receive notification when it hits a certain dollar amount.

There is also an option to import your wishlist from Amazon.
Check it out and save a few dollars on something you need to buy!

The screenshot shows the camelcamelcamel website. At the top left is the camelcamelcamel logo. Next to it is a search bar with the placeholder text "Enter Amazon URL or keywords to find products" and a magnifying glass icon. To the right of the search bar are links for "Sign up" and "Log in" with a small American flag icon. Below the search bar is a navigation menu with five items: "Your Price Watches", "Browse Products", "Popular Products", "Top Price Drops", and "Community Deals".

The main content area starts with a heading "Welcome to camelcamelcamel, a free Amazon price tracker!" followed by a sub-heading "Our free Amazon price tracker monitors millions of products and alerts you when prices drop, helping you decide when to buy." Below this are three columns of featured services:

- Amazon Price Drop Alerts:** Includes an icon of an envelope with a pound and dollar sign. Text: "Create Amazon price watches and get alerts via email and Twitter when prices drop."
- Amazon Price History Charts:** Includes an icon of a line graph with a red arrow pointing down. Text: "View the price history of over 18 million Amazon products."
- Browser Addons:** Includes an icon of a spiral notebook with a camel on it. Text: "Add our price history charts to your browser with The Camelizer, our extension for Mozilla Firefox and Google Chrome."

Below these columns is a "Create Free Account" button. To its right is the text: "Signing up is quick and makes using the site more convenient. It's also free! Have a Google, Facebook, or Twitter account? You're welcome to sign in with those, too."

Further down are three testimonial quotes:

- COOLTOOLS:** "Ever since I discovered it a few weeks ago, I've looked at it before I bought anything on Amazon just to make sure I was at or near a historical low."
- PCWorld:** "As someone who works overtime to find the lowest prices on everything, I'm adding camelcamelcamel to my list of must-bookmark sites."
- lifehacker:** "If you want to ... find out the best price for a particular product, you can look at its price history on camelcamelcamel."

At the bottom is a "Popular Products" section with the text: "Check out these recently popular deals on camelcamelcamel. See what Camel users have been buying lately! (more info)". Below this text are three filters: "Period:" with buttons for "Now", "1 week", "1 month", and "3 months"; "Show:" with buttons for "All Products" and "Deals Only"; and "Category:" with a dropdown menu set to "All Products".
